

## 1970 Cougar (351 Cleveland engine) with 70,258 miles

1970 Cougar (351 Cleveland engine) and Lentech automatic overdrive with 70,300 miles for \$27,500. Bought in 2018 from second owner with 68,674 miles.

Refurbished interior, updated air conditioning, front/rear suspension (air shocks in back), tires, added 4 barrel Holly carburetor, aluminum manifold, electronic ignition, front/rear spoiler, quartz clock, tachometer, modern radio, and repainted Competition Orange.

Upgraded FMX transmission to a new Lentech Automatic Street Cruiser automatic overdrive with wide gear ratio (4R70W) and 12 inch converter. Houndstooth high back bucket seats, tilt steering wheel, tinted glass, sports console.

No rust!

I really love this car but have only put 509 miles on it last year due to driving my other classic cars.
